

ALL THE NEWS THAT'S
FIT TO PRINT...

THE TIME CORRIDOR... What's all this I hear about The Time Corridor. The Time Corridor is the Circle's quarterly newsletter/fanzine. This wonderful publication provides members with the latest British/Sci-Fi news from around the world. Club news and reviews, convention information and listings, artwork, games, contests, photos, and award winning short stories and articles are also featured. All of this and more can be found in your own copy of The Time Corridor. And, if you are an inspiring artist or writer, The Time Corridor is the perfect place to show off your creative talents. Don't delay get yours today...

PAL CONTRIBUTOR GROUP... Yes, the famed British Pal television equipment has also been blessed upon the Circle. Thanks to many friends across the sea, your favourite unedited shows from Europe and elsewhere can be brought to you faster and in most cases better quality. But, the high import costs have forced us to start a member contributing fund to help cover some of the cost. In an attempt to make contributing more attractive, we are offering the benefits mentioned above and money back. Yes, you heard me correctly. Once the equipment is paid off, all extra revenue from renting the equipment to conventions and other clubs, will be divided and forwarded to Pal contributors relative to their percentage contribution to the cost of the equipment. Hopefully, this idea will bring more viewing variety and a new service for all our members.

WHAT COULD ALL THIS COST, you might be asking yourself. For only seven dollars (U.S.), you would receive all the aforementioned benefits in this brochure and more for an entire year. This is better than two Ginsu knife offers... To join this wonderful and enterprising club, fill out a registration form and post it off today...

DON'T PANIC

WHAT IS IT?

CIRCLE OF POWER is not a satanic group of hippies that dance around large rocks during a full moon, but rather a fan organization, run by fans, for fans who love Doctor Who, Blake's Seven, or any other form of British media. The Circle is also for all those who like American science fiction as well, such as Star Trek or Battlestar Galactica. If it's good or different, we are interested in it.

SPECIAL PROJECTS are also part of the Circle. Several members enjoy writing short screenplays and parodys. Currently, we are working with an original piece entitled "Schtreziboss" (She-trees-e-boss). The Circle has been granted permission publish as well as produce the script. Various episodes will appear in upcoming issues of The Time Corridor. The story is basically a parody of the Daleks and the Colin Baker story "Vengeance on Varos" from Doctor Who. If you would be interested in working on this type of project please don't hesitate to contact Circle HQ.

CONVENTION NEWS... Circle members attend several conventions a year and relay new convention news and updates into Circle HQ. We then use this information and produce a convention listing which can be found in the convention centre of The Time Corridor. Information about the Tardis series, Panopticons, Multi-media cons, and even gaming conventions are featured. We even offer help with rooming and transportation to conventions.

MERCHANDISE DISCOUNTS... With your Circle of Power membership, you can receive 10% all merchandise purchased at T.J.'s comics shop of Chicago. We are working with several stores and importers to obtain further discounts in the future. Currently, we are working with another fan club, to establish a travel discount with nation-wide travel agency for travel to conventions. More as it becomes available...

Just in from the front... Circle members can now receive 15% off merchandise from Bundles from Britain. Ask for details...

ROLE PLAYING...

For a couple of years, several of our members have been interested in ROLE PLAYING experience outside of the club. In an attempt to widen activities, the Circle has recently adopted role playing. All types of role playing are enjoyed, but the new FASA Doctor Who game has been run more often at meetings. Once in a while, guest game masters attend meetings to run games...

Circle of Power MEETINGS... Circle meetings are very informal. We do not believe in being tied down to traditional rules of government. However, this is not to say that total chaos reigns. Project committees are set up and everyone has an equal vote on club decisions. Home base, in Downers Grove, IL., is where most of the club sorses originate. All letters of reference to the club should be forwarded there unless directed to project committees. Club meetings would not be complete without videos. Usually, one feature video is shown and possibly more if time allows. Meetings are held once a month at members homes. Meeting dates and locations change monthly, therefore a bullitin is sent prior to each meeting, as a type of reminder. A list of meetings can also be found The Time Corridor. Most meetings run from 7:00 P.M. until 10:00 P.M. or later. Special outings and convention meetings are subject to scheduling...
